

connexion

```
graph LR; A[connexion] --> B[scan_assoc_callback]; B --> C[rxsignal_cmp];
```

The diagram illustrates a linear flow between three components. The first component, 'connexion', is represented by a grey rectangular box. A dark blue arrow points from its right side to the left side of the second component, 'scan_assoc_callback', which is a white rectangular box with a black border. Another dark blue arrow points from the right side of the second component to the left side of the third component, 'rxsignal_cmp', also a white rectangular box with a black border.
